Explore the opportunities for economic partnerships in Poland.

Ashok Kumar Ghosh

Head Plant & Executive Vice President
Haldia Petrochemicals Limited

E-Mail : ashok.ghosh@hpl.co.in

Web : www.haldiapetrochemicals.com

Personal Profile

Mr Ashok Kumar Ghosh has over 37 years' rich experience in project conceptualization and implementation of large size fertilizer project consisting single stream Ammonia Plant and Naphtha cracker based petrochemical complex. He has a proven track record of enhancing productivity, cutting costs, and fostering efficiency in a modern world scale manufacturing facility..

As Head-Plant, he is heading all functions at plant site including project management since 2005 in Haldia Petrochemicals Ltd. He conceptualized and implemented the unique brown field expansion project at HPL for capacity expansion of the complex by 30 percent through retrofit mode (all the eight process plants, off-site facilities & captive power plant including the naphtha cracker unit, the mother unit). Recently, he has conceptualized value added Butene-I chemical project and implemented coal-based power plant.

Company Profile

Established in the '90s as a symbol of industrial resurgence in West Bengal, Haldia Petrochemicals Ltd. or HPL was the first integrated petrochemicals complex situated in Haldia, 125 kms from Kolkata in West Bengal.

With a state-of-the-art naphtha cracker complex, HPL started production in the year 2000. HPL is one of the largest petrochemical companies in India with a total capacity equivalent to 700 KTA of ethylene. HPL is a preferred supplier of polymers and chemicals around the world. The company invests substantially in R&D to meet the needs that may arise in the future. India's first PE112 pipe grade for potable water distribution was developed by HPL's R&D Centre.

Sanjay Grover

Vice President - International Business Division
Kirloskar Pneumatic Company Limited

E-Mail : sanjay.grover@kirloskar.com

Web : www.kirloskarpneumatic.com

Mr Allwyn Lewis is the Head of International Marketing & Business Development for Process Plant Equipment & Internals business at Larsen & Toubro's Heavy Engineering Business which is a manufacturing vertical of L&T Group.

With a degree in Metallurgical Engineering and a post-graduate qualification in business management, He commenced his professional career 2004 and has worked in various functions like Welding Technology, Manufacturing before moving into Marketing and Business Development.

He as a welding engineer & metallurgist has handled more than 100 equipment comprising of advanced CrMoV Reactors, heavy Ethylene Oxide Reactors, PTA equipment, Coke Drums, Urea & Ammonia Equipment and Nuclear Power equipment. He spearheaded various initiatives & established welding & heat treatment of 300 mm Thk CrMoV Reactor, developed single layer ESSC strip for 120 mm & 150 mm wide strip & established Quenching & tempering (Q&T) facility for Thick walled CrMoV plates at L&T-Hazira works. During his tenure as manufacturing head, L&T achieved a Global benchmark by delivering Steam generator & End Shields in record time of 36 months to a Nuclear Power Plant in India.

Mr Lewis is based out of A.M.Naik Hazira Manufacturing Complex, Surat which is Globally benchmarked, state of the art, Industry 4.0 digitally enabled super heavy manufacturing facility.

Company Profile

L&T Heavy Engineering business is global leader in meeting the supply of Engineered to order hi-tech equipment needs of Refinery, Oil & Gas, Fertilizer, Petrochemicals and Nuclear plants. The business has been at the forefront of introducing digital Industry 4.0 techniques, products and materials into manufacturing sector for over eight decades. A, M, Naik Heavy Engineering complex at Hazira is globally benchmarked state-of-the-art fully integrated, digitally enabled manufacturing complex. Its capability spectrum not only covers in-house engineering, R&D centres, and world class fabrication facilities, but also

includes a highly talented team, committed to a safe and sustainable work culture.

The business is organised into Reactor & Pressure Vessels (RPV) PBU, Heat Transfer Equipment (HTE) PBU, Process Plant Internals (PPI) PBU, Modification, Revamp & Upgrade (MRU) PBU, Nuclear PBU, and Special Fabrication Unit (SFU).

Business Interest

L&T Heavy Engineering is currently manufacturing large complex Ethylene Oxide Reactors for the Olefins Expansion Project of PKN Orlen at Plock, Poland. We are proud to be associated with this project as it is a key pillar in PKN ORLEN's Petrochemicals Development Program. Also, L&T is manufacturing Steam Drums (5 nos) for the order received through KBR which will deliver licensing, basic engineering design, and proprietary equipment for implementation of its proprietary Selective Cracking Optimum Recovery (SCORE) ethylene technology at the new plant, Olefins 3 complex. L&T is very keen to participate in the supply of these critical equipment in upcoming greenfield and brownfield projects in refinery and petrochemical plants.

Rateesh Kamath

Design Head Europe Projects
TATA AutoComp

E-Mail : rateesh.kamath@tataautocomp.com

Web : www.tataautocomp.com

Personal Profile

Mr Rateesh Kamath is a multi-cultural, business-oriented Automotive Professional with close to 20 years of experience working with Global OEM customers in India, Europe, China & North America. Over the past years, he has also rendered service towards other important verticals, such as Defence Advisory and Consultancy Services, Advanced Materials and Railways.

Mr Mahapatra is an engineering graduate from the Karnataka University, Dharward.

Government of India
Ministry of Commerce and Industry
Department for Promotion of Industry and Internal Trade

Department for Promotion of Industry and Internal Trade - Brief

Introduction

The Department for Promotion of Industry and Internal Trade (DPIIT) was established in the year 1995 and was reconstituted in the year 2000 with the merger of the Department of Industrial Development. The department was earlier called the Department of Industrial Policy & Promotion and was renamed as DPIIT in January 2019.

In 2018, matters related to e-commerce were transferred to the Department and in 2019 the Department was given charge of Internal Trade, Welfare of Traders and their Employees and Startups. The mandate for integrated development of the Logistics Sector has also been recently allocated to DPIIT in November 2021.

The vision of DPIIT is to promote Indian Industry and facilitate a balanced growth of industries. Its mission is to create a conducive environment and accelerate annual growth of industries to double digit level on sustained basis; improve share of manufacturing in GDP; improve India's global share of FDI, and make India a preferred location for foreign investment.

Allocation of Business to the Department

According to the Allocation of Business (AOB) Rules, the Department is responsible for determining the Industrial Policy at Central Government level. The Department handles matters related to Protection of Intellectual Property Rights (IPR) and administers acts related to IPRs. The Department also handles matters related to Foreign Direct Investment (FDI) and undertakes promotion of direct foreign and non-resident investment. It looks after promotion of investment by Overseas Indians in India, including innovative investments and policy initiatives consistent with the overall Government policies, particularly in areas such as Special Economic Zones for Overseas Indians. The Department is responsible for promotion and development of industries that are not covered by other Ministries/ Departments.

Functions of DPIIT

The main functions of DPIIT are as follows:

1. Formulation and implementation of industrial policy and administration of Industries (Development & Regulation) Act, 1951.

2. Monitoring and stimulation of growth of manufacturing industry in general, and performance of industries specifically assigned to DIPP.
3. Promotion of industrial development in North East and special category states of J &K, Himachal Pradesh and Uttarakhand through appropriate incentives.
4. Formulation of Foreign Direct Investment Policy and promotion and facilitation of direct foreign and non-resident investments in industrial and service projects.
5. Association as nodal department for investment related issues in Bilateral/ Regional Economic Cooperation Agreements.
6. Formulation of policies relating to Intellectual Property Rights in the field of Patents, Trade Marks, Industrial Design and Geographic Indication of Goods and administration of regulations and rules under IPR.
7. Compilation and dissemination of Wholesale Price Index and collection of monthly industrial production statistics particularly for use in construction of Index of Industrial Production.

Major programmes/ schemes/ policies

Some of the major programmes, schemes and policies falling under the purview of DPIIT are as follows:

1. **Foreign Direct Investment (FDI):** DPIIT is the Nodal Department for formulation of policy of the Government on FDI. It is responsible for maintenance and management of data on inward FDI, based on the remittances reported by the Reserve Bank of India.
2. **Make in India (MII):** The MII initiative is aimed at fostering innovation, building world class infrastructure, and making India a hub for manufacturing, design, and innovation
3. **National Intellectual Property Rights (IPR) Policy:** The National IPR Policy, approved on 12th May 2016 lays the roadmap for intellectual property in India.
4. **National Design Policy:** National Design Policy includes the Promotion of Indian design through a well-defined regulatory, promotional and institutional framework
5. **Ease of Doing Business (EODB):** DPIIT is spearheading the exercise for improving overall business regulatory environment in the country by streamlining existing regulations.
6. **Startup India:** Startup India is a flagship initiative of the Government of India, intended to catalyze startup culture and build a strong and inclusive ecosystem for innovation and entrepreneurship in India.
7. **Development of Logistics Sector:** This Logistics Division was created with the

mandate for integrated development of logistics sector in the country and to bring about a reduction in the logistics cost.

8. **Project Monitoring Group (PMG):** PMG is an institutional mechanism that Functions for resolving issues and bottlenecks and fast-tracking the setting up and commissioning of large infrastructure projects.
9. **Industrial Park Rating System (IPRS):** IPRS is expected to evolve to deliver the following objectives to provide information, enhance competitiveness, recognize best practices and identify requisite policy.
10. **North East Industrial Development Scheme (NEIDS):** The Government of India has notified the scheme to promote industrialization in North Eastern Region.
11. **E-Commerce:** DPIIT is responsible for matters related to E-Commerce, including formulation of e-commerce policy,

Confederation of Indian Industry

The Confederation of Indian Industry (CII) works to create and sustain an environment conducive to the development of India, partnering Industry, Government and civil society, through advisory and consultative processes.

CII is a non-government, not-for-profit, industry-led and industry-managed organization, with around 9000 members from the private as well as public sectors, including SMEs and MNCs, and an indirect membership of over 300,000 enterprises from 286 national and regional sectoral industry bodies.

For more than 125 years, CII has been engaged in shaping India's development journey and works proactively on transforming Indian Industry's engagement in national development. CII charts change by working closely with Government on policy issues, interfacing with thought leaders, and enhancing efficiency, competitiveness and business opportunities for industry through a range of specialized services and strategic global linkages. It also provides a platform for consensus-building and networking on key issues.

Extending its agenda beyond business, CII assists industry to identify and execute corporate citizenship programmes. Partnerships with civil society organizations carry forward corporate initiatives for integrated and inclusive development across diverse domains including affirmative action, livelihoods, diversity management, skill development, empowerment of women, and sustainable development, to name a few.

As India completes 75 years of Independence in 2022, it must position itself for global leadership with a long-term vision for India@100 in 2047. The role played by Indian industry will be central to the country's progress and success as a nation. CII, with the Theme for 2022-23 as Beyond India@75: Competitiveness, Growth, Sustainability, Internationalisation has prioritized 7 action points under these 4 sub-themes that will catalyze the journey of the country towards the vision of India@100.

With 62 offices, including 10 Centres of Excellence, in India, and 8 overseas offices in Australia, Egypt, Germany, Indonesia, Singapore, UAE, UK, and USA, as well as institutional partnerships with 350 counterpart organizations in 133 countries, CII serves as a reference point for Indian industry and the international business community.
